DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2, 6 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by JP '260.

Claims are rejected as anticipated by the reference since the melt blown microfibers as required by the claims are taught. The fibers are taught with the required polycycloolefin polymers as a component. Applicants have argued that the reference also requires acid containing polymers. This is true, however, the claims do not exclude other components. The microfibers of the reference, therefore, read on the claimed invention and the rejection under 35 U.S.C. 102 remains proper.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
